Washington, DC 20554

Dear The Federal Communications Commission,

In your new leadership role as chairman of the FCC I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). My wife and I have only limited use for a cell phone and her main use is safety and emergency medical. We simply cannot afford a full-service cell phone system and prefer a pay-as-you-go limited plan. The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make very few long distance calls would pay the same as people or businesses that make many calls. I believe retirees and others on these limited plans should not have to pay any surcharges at all. It would definitely be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,

Lynn Walker
